

# THE FASEB JOURNAL

Volume 11, Number 1

January 1997

## Table of Contents

### Serial Reviews

Sulfation and Sulfotransferases. Introduction: Changing view of sulfation and the cytosolic sulfotransferases. <i>C. N. Falany</i> . . . . .	1
Sulfation and Sulfotransferases 1: Sulfotransferase molecular biology: cDNAs and genes. <i>R. M. Weinshilboum, D. M. Otterness, I. A. Aksoy, T. C. Wood, C. Her, and R. B. Raftogianis</i> . . . . .	3
Hepatic Canalicular Membrane. Introduction: Transport across the hepatocyte canalicular membrane. <i>D. Keppler and I. M. Arias</i> . . . . .	15
Hepatic Canalicular Membrane 1: The role of mdr2 P-glycoprotein in hepatobiliary lipid transport. <i>R. P. J. Oude Elferink, G. N. J. Tytgat, and A. K. Groen</i> . . . . .	19
Cytochromes P450 11: Expression of the <i>CYP19</i> (aromatase) gene: an unusual case of alternative promoter usage. <i>E. R. Simpson, M. D. Michael, V. R. Agarwal, M. M. Hinshelwood, S. E. Bulun, and Y. Zhao</i> . . . . .	29

### Reviews

The role of serine/threonine phosphorylation in hematopoietic cytokine receptor signal transduction. <i>R. A. Mufson</i> . . . . .	37
Lipid biochemistry: functions of glycerolipids and sphingolipids in cellular signaling. <i>S. Ghosh, J. C. Strum, and R. M. Bell</i> . . . . .	45
Growth factors in the extracellular matrix. <i>J. Taipale and J. Keski-Oja</i> . . . . .	51
Imprinted genes in liver carcinogenesis. <i>A. T. De Souza, T. Yamada, J. J. Mills, and R. L. Jirtle</i> . . . . .	60

### Research Communications

A superfamily of conserved domains in DNA damage-responsive cell cycle checkpoint proteins. <i>P. Bork, K. Hofmann, P. Bucher, A. F. Neuwald, S. F. Altschul, and E. V. Koonin</i> . . . . .	68
Interaction of human chagasic IgG with the second extracellular loop of the human heart muscarinic acetylcholine receptor: functional and pathological implications. <i>J. C. Goin, C. P. Leiros, E. Borda, and L. Sterin-Borda</i> . . . . .	77
Cystine levels, cystine flux, and protein catabolism in cancer cachexia, HIV/SIV infection, and senescence. <i>V. Hack, D. Schmid, R. Breitkreutz, C. Stahl-Henning, P. Drings, R. Kinscherf, F. Taut, E. Holm, and W. Dröge</i> . . . . .	84
Studies of the renal action of melatonin: evidence that the effects are mediated by 37 kDa receptors of the Mel <sub>1a</sub> subtype localized primarily to the basolateral membrane of the proximal tubule. <i>Y. Song, C. W. Y. Chan, G. M. Brown, S. F. Pang, and M. Silverman</i> . . . . .	93
