

THE FASEB JOURNAL

CONTENTS

Public Affairs	1687
EPA, Environmental Release, and the Regulatory Process	
Reviews	
Alcohol intoxication: ion channels and genetics. <i>R. A. Harris and A. M. Allan</i>	1689
Variable receptor affinity hypothesis. <i>J. A. Bevan, R. D. Bevan, and S. M. Shreeve</i>	1696
NMR studies of the interactions of substrates with enzymes and their peptide fragments. <i>A. S. Mildvan</i>	1705
Oncogene-associated tumor antigens as targets for immunotherapy. <i>K. E. Hellström and I. Hellström</i>	1715
Promoter specificity and modulation of RNA polymerase II transcription. <i>A. G. Saltzman and R. Weinmann</i>	1723
Research Communications	
Studies of 5'-deiodinase activity in rats differing in hepatic lipogenic activity. <i>M. K. McIntosh, C. D. Berdanier, and A.-L. Kates</i>	1734
Moderate caloric restriction delays cataract formation in the Emory mouse. <i>A. Taylor, A. M. Zuliani, R. E. Hopkins, G. E. Dallal, P. Treglia, J. F. R. Kuck, and K. Kuck</i>	1741
Induction of angiogenesis by intraperitoneal injection of asbestos fibers. <i>R. M. Branchaud, J. L. MacDonald, and A. B. Kane</i>	1747
Steroid regulation of monoamine oxidase activity in the adrenal medulla. <i>H. B. H. Youdim, D. K. Banerjee, K. Kelner, L. Offutt, and H. B. Pollard</i>	1753
Avidin-like domain in an epidermal growth factor homolog from a sea urchin. <i>L. T. Hunt and W. C. Barker</i>	1760
Calendar	1765
Books	1774
Federation News	1775
