

# THE FASEB JOURNAL

## News

In Brief . . . . .	1
--------------------	---

## Editorial Comment

A View from the South. <i>Jorge E. Allende</i> . . . . .	6
--	---

## Reviews

Origins of the human genome project. <i>J. D. Watson and R. M. Cook-Deegan</i> . . . . .	8
Current trends in mapping human genes. <i>V. A. McKusick</i> . . . . .	12
Molecular studies of human genetic disease. <i>B. J. F. Rossiter and C. T. Caskey</i> . . . . .	21
New techniques for physical mapping of the human genome. <i>P. R. Billings, C. L. Smith, and C. R. Cantor</i> . . . . .	28
The Human Genome Project: a paradigm for information management in the life sciences. <i>M. L. Pearson and D. Söll</i> . . . . .	35
DNA sequencing: present limitations and prospects for the future. <i>B. Barrall</i> . . . . .	40
Applications of the polymerase chain reaction to genome analysis. <i>E. A. Rose</i> . . . . .	46
Ethical issues in human genome research. <i>T. H. Murray</i> . . . . .	55
European approach to the human gene project. <i>M. A. Ferguson-Smith</i> . . . . .	61
Human genome efforts in Japan. <i>Y. Ikawa</i> . . . . .	66
First moves of the USSR Human Genome Project. <i>A. A. Bayev</i> . . . . .	70
HUGO: The Human Genome Organization. <i>W. F. Bodmer</i> . . . . .	73

## Debate

All our collective ingenuity will be needed. <i>P. Berg</i> . . . . .	75
Some problems with a crash program. <i>B. D. Davis</i> . . . . .	76
The Genome Project and human health. <i>F. S. Collins</i> . . . . .	77
There are two large questions. <i>R. A. Weinberg</i> . . . . .	78

## Research Communications

Immunogold labeling of perforin and serine esterases in granulated metrial gland cells. <i>L. M. Zheng, D. M. Ojcius, C-C. Liu, M. D. Kramer, M. M. Simon, E. L. Parr, and J. D-E. Young</i> . . . . .	79
Effect of retinoic acid and apo-RBP on serum retinol concentration in acute renal failure. <i>T. H. Gerlach and M. H. Zile</i> . . . . .	86
Accelerated benzodiazepine receptor recovery after lorazepam discontinuation. <i>L. G. Miller, M. Lumpkin, D. J. Greenblatt, and R. I. Shader</i> . . . . .	93
Inhibition of macrophage and endothelial cell nitric oxide synthase by diphenyleiiodonium and its analogs. <i>D. J. Stuehr, O. A. Fasehun, N. S. Kwon, S. S. Gross, J. A. Gonzalez, R. Levi, and C. F. Nathan</i> . . . . .	98
Transplantation of syngeneic transfected cells to probe the in vivo immune response to viral proteins. <i>H. Nakayama, M. Shibata, C. Wohlenberg, J. F. Rooney, and A. L. Notkins</i> . . . . .	104
Molecular mapping of human band 3 anion transport regions using synthetic peptides. <i>M. M. B. Kay</i> . . . . .	109

## Letter to the Editor

Age Discrimination in NIH Peer Review. <i>William F. Raub</i> . . . . .	116
