Life Sciences Forum

Serial Review
Cytochromes P450 10: Ad4BP/SF-1, a transcription factor essential for the transcription of steroidalogenic cytochrome P450 genes and for the establishment of the reproductive function. K.-I. Morohashi and T. Omura ............................................. 1569

Reviews
Regulation of STAT-dependent pathways by growth factors and cytokines. D. W. Leaman, S. Leung, X. Li, and G. R. Stark ................................................................. 1578
Trinucleotide repeat disorders in humans: discussions of mechanisms and medical issues. L. T. Timchenko and C. T. Caskey ................................................................. 1589
Osmotic regulation of gene expression. M. B. Burg, E. D. Kwœ, and D. Kültz ............ 1598
MIF rediscovered: cytokine, pituitary hormone, and glucocorticoid-induced regulator of the immune response. R. Bucala ......................................................... 1607

Research Communications
Selective monitoring of peptidase activities with synthetic polypeptide substrates and polypeptide-sensitive membrane electrode detection. I. S. Han, N. Ramamurthy, J. H. Yun, U. Schaller, M. E. Meyerhoff, and V. C. Yang ................................................................. 1621
Transgenic mice for the establishment of histidinol-resistant embryonic fibroblast feeder layers. R. M. Tucker and D. T. Burke ................................................................. 1641
Dietary choline supplementation in pregnant rats increases hippocampal phospholipase D activity of the offspring. T. Holler, J. M. Cermak, and J. K. Blusztajn ................................................................. 1653

Acknowledgment ................................................................. 1660

Subject Index to Volume 10 ................................................................. 1661

Author Index to Volume 10 ................................................................. 1669

The FASEB Journal is the Official Publication of the Federation of American Societies for Experimental Biology
The American Physiological Society • American Society for Biochemistry and Molecular Biology • American Society for Pharmacology and Experimental Therapeutics • American Society for Investigative Pathology • American Society for Nutritional Sciences • The American Association of Immunologists • The American Society for Cell Biology
Biophysical Society • American Association of Anatomists • The Protein Society
