FJ Reviews

Control strategies in physiological systems. J. C. Houk .............................................. 97

Biology of interleukin 1. C. A. Dinarello ................................................................. 108

Hemostatic properties of normal and perturbed vascular cells. G. M. Rodgers .................. 116

Molecular basis of bacterial resistance to organomercurial and inorganic mercuric salts.
C. T. Walsh, M. D. Di Stefano, M. J. Moore, L. M. Shechuh, and G. L. Verdin ............... 124

Potential mechanisms mediating postprandial renal hyperemia and hyperfiltration.
A. J. Premen .............................................. 131

FJ Research Communications

Identification of N-(2-propenal) serine as a urinary metabolite of malondialdehyde.
M. Hadley and H. H. Draper .............................. 138

Induction of helper and suppressor T cells by nonoverlapping determinants on the large
protein antigen, β-galactosidase. U. Krzych, A. V. Fowler, A. Miller, and E. E. Sercarz .... 141

Irreversible injury in anoxic hepatocytes precipitated by an abrupt increase in plasma
membrane permeability. B. Herman, A.-L. Niimen, G. J. Gores, and J. J. Lemasters ........ 146

Bile acid synthesis: down-regulation by monohydroxy bile acids. R. Hall, E. Kok, and
N. B. Javitt .............................................. 152

FJ Calendar .............................................. 157

FJ Book Reviews .............................................. 168

FJ Public Affairs

Women in science: numbers are improving but problems remain ............................. 171

FJ Federation News

FASEB Summer Research Conferences .............................................. 175

FJ New Products and Literature .............................................. 185
COMING IN THE MARCH ISSUE OF THE FASEB JOURNAL

FJ Tribute
A. Baird Hastings. R. W. McKee

FJ Reviews
A versatile method for simultaneous analysis of families of curves. V. Guardabasso, P. J. Munson, and D. Rodbard
RNA splicing in the T-even bacteriophage. F. J. Chu, G. F. Maley, and F. Maley

The vitamin D story: a collaborative effort of basic science and clinical medicine. H. F. DeLuca

FJ Research Communications
Altered amount and activity of superoxide dismutase in sickle cell anemia. L. Schuster, J. A. Wirth, E. M. Gordon, A. Prasad, and B. L. Klein

PUBLICATIONS COMMITTEE: Finn Wold, Chairperson • Michael M. Gottesman • F. W. Hill • Franklin P. Inman • Leonard R. Johnson • Robert E. Stitzel • F. Stephen Vogel • Robert W. Krauss, ex officio • F. G. Knox, ex officio

Designed to report on rapidly changing developments in biological sciences, THE FASEB JOURNAL publishes brief, definitive, original research communications and state-of-the-art reviews, as well as editorials, letters, book list and book reviews, news items, calendar, and public affairs. The views expressed in articles are those of the authors and not necessarily those of the Federation. All manuscripts are subject to review and approval by the Editors before publication. Copyright © 1988 by the Federation of American Societies for Experimental Biology. Printed at Lancaster Press, Lancaster, Pennsylvania. All rights reserved. Requests for any reproduction of copyrighted material except the first page of a regular article should be made in writing to the Executive Editor, FASEB, 9650 Rockville Pike, Bethesda, Maryland 20814, and should include an explicit statement of intended use and detailed specification of the material to be reproduced. Telephone 301-530-7100. COPYRIGHT: An individual may make a single copy of an article for personal use. The code at the bottom of the first page of an article indicates the copyright owner's consent that additional copies of the article may be made provided that the stated fee is paid through the Copyright Clearance Center, Inc., 21 Congress Street, Salem, Massachusetts 01970.

Business Manager: All business matters should be directed to Mr. Austin H. Henry, Business Manager, FASEB, 9650 Rockville Pike, Bethesda, MD 20814 (301-530-7002).

Advertising Representative: Valerie Stutman, FASEB, 9650 Rockville Pike, Bethesda, MD 20814 (301-530-7107).

THE FASEB JOURNAL (ISSN 0892-6638) is published 15 times a year, monthly except 4 issues in March (March 1; and March 15, 20, 25, Abstracts), by FASEB, 9650 Rockville Pike, Bethesda, Maryland 20814. Application to mail at second-class postage rates is pending at Bethesda, Maryland, and at additional mailing offices. Postmaster: Send address changes to The FASEB Journal, 9650 Rockville Pike, Bethesda, Maryland 20814.

Subscription Price U.S.: Members of Corporate Societies $13.00 per year; Members of Affiliate Society $20.00 per year; Nonmembers (personal) $75.00 per year; Institutional $150.00 per year; Students $40.00 per year with certification. Outside U.S. add $35.00 postage. All subscriptions entered on a calendar year basis only and payable in advance. Single issues, except Abstracts issues, $15.00. Subscriptions and orders should be sent to THE FASEB JOURNAL, Subscription Department, 9650 Rockville Pike, Bethesda, Maryland 20814 (301-530-7027).
