OUR SHR RAT IS TAKING THE PRESSURE OFF MILLIONS OF PEOPLE.

In this fast-paced world of ours, it takes a special breed to handle the pressures. For the millions of people afflicted with hypertension and the researchers working to resolve its mysteries, the Charles River COBS® SHR hypertensive inbred albino rat is precisely that: specially bred to provide the consistently high pressures vital to successful hypertension research.

And consistency is the key. Indirect systolic pressures of 180-220 mm Hg are recorded regularly in our 8-10 week old male breeding stock. Our SHR's are continuously brother-sister mated and monitored to assure you a constant supply of spontaneously hypertensive rats. And to further eliminate variables which may affect the accuracy of your findings, Charles River SHR rats are also available Virus Antibody Free (VAF®), which offers you the valuable certainty that all of our VAF® animals have received continuous genetic and health monitoring and have been found free of adventitious virus infection. All that adds up to lower blood pressure for the researcher too.

When your efforts to control hypertension demand the highest defined quality research animals available in the world today, specify Charles River COBS/VAF® SHR hypertensive inbred albino rats. Relax. And let us help take the pressure off. Call 1-800-LAB-RATS. Or write Charles River Laboratories, Inc., 251 Ballardvale Street, Wilmington, MA 01887. FAX Phone 617-658-7132.

Circle 1 on Reader Service Card
By making our online biomedical information easier to use, we’ve opened the door for more users.

You, for instance.
If you’re a physician or researcher in a medical, clinical, university, or scientific environment, our new Dialog Medical Connection™ could very well be the research tool you’ve been looking for.

Dialog is already the choice of the majority of information specialists. So you’ll be using the most sought after information available.

Now it’s easy to have fast access to the major biomedical databases like MEDLINE.

Or BIOSIS PREVIEWS, giving you world wide coverage of research in the life sciences.

Or NEWSEARCH, one of many general reference databases providing a daily index of articles and book reviews from over 1700 of the most important newspapers, magazines and periodicals.

So it’s easy to stay well informed on virtually any topic that’s important.

Best of all, you don’t have to be an online professional to use Dialog Medical Connection. Because it offers an easy to follow menu for new users and a command mode for more experienced searchers.

There’s no reason not to have instant access to information you need when you need it. All you need is a personal computer, a modem, and Dialog Medical Connection.

Call Dialog today and ask about our special incentives for first-time users including $100 free time. 1-800-3-DIALOG. Or write Dialog Marketing, 3460 Hillview Avenue, Palo Alto, CA 94304.
