Annual Reviews offers comprehensive, timely collections of critical, topical reviews written by leading scientists. Annual Reviews journals examine 40 focused disciplines within the Biomedical, Life, Physical, and Social Sciences, including Economics. Our Editorial Committees select experienced researchers to examine and synthesize literature into concise, insightful review articles. As a result, Annual Reviews journals are among the most highly cited in scientific literature and are consistently ranked within the top ten of journals for their disciplines as indexed by the Journal Citation Reports® (Thomson Reuters).

Please mention priority code FASEBJ when placing your order.
Handling and applicable sales tax additional. Order via phone, fax, or online. Institutional pricing and site license options available. Contact Annual Reviews for details.

Annual Reviews publishes 25 journals in the Biomedical/Life Sciences, including:

- **Annual Review of Analytical Chemistry**
  Vol. 5 | Jul. 2012 | Discounted Personal Copy Price: $75.20

- **Annual Review of Biochemistry**
  Vol. 81 | Jul. 2012 | Discounted Personal Copy Price: $75.20

- **Annual Review of Biomedical Engineering**

- **Annual Review of Biophysics**

- **Annual Review of Cell and Developmental Biology**
  Vol. 28 | Nov. 2012 | Discounted Personal Copy Price: $75.20

- **Annual Review of Chemical and Biomolecular Engineering**
  Vol. 3 | Jul. 2012 | Discounted Personal Copy Price: $71.20

- **Annual Review of Food Science and Technology**
  Vol. 3 | Apr. 2012 | Discounted Personal Copy Price: $66.40

- **Annual Review of Genetics**
  Vol. 46 | Dec. 2012 | Discounted Personal Copy Price: $71.20

- **Annual Review of Genomics and Human Genetics**
  Vol. 13 | Sep. 2012 | Discounted Personal Copy Price: $71.20

- **Annual Review of Immunology**
  Vol. 30 | Apr. 2012 | Discounted Personal Copy Price: $75.20

- **Annual Review of Marine Science**
  Vol. 4 | Jan. 2012 | Discounted Personal Copy Price: $71.20

- **Annual Review of Medicine**
  Vol. 63 | Feb. 2012 | Discounted Personal Copy Price: $71.20

- **Annual Review of Microbiology**

- **Annual Review of Neuroscience**
  Vol. 35 | Jul. 2012 | Discounted Personal Copy Price: $71.20

- **Annual Review of Nutrition**

- **Annual Review of Pathology: Mechanisms of Disease**
  Vol. 7 | Feb. 2012 | Discounted Personal Copy Price: $46.40

- **Annual Review of Pharmacology and Toxicology**
  Vol. 52 | Feb. 2012 | Discounted Personal Copy Price: $71.20

- **Annual Review of Physiology**
  Vol. 74 | Mar. 2012 | Discounted Personal Copy Price: $75.20

ARE YOU HOLDING THE KEY TO A RESEARCH BREAKTHROUGH?

$3 MILLION IN FUNDING NOW AVAILABLE

Time is growing short to apply for funding available through a collaboration between Fast Forward, a non-profit subsidiary of the National MS Society, and EMD Serono, Inc. for the following areas:

- Development of therapeutics that target specific B cell lineages involved in MS pathology
- Identification of surrogate or endogenous ligands for Orphan G Protein-Coupled Receptors (GPCRs) in the CNS

All proposals must be submitted by May 1, 2012.
The University of Vermont

The University of Vermont has openings for both Ph.D. and Post-doctoral training positions in fields related to blood coagulation research encompassing vascular biology, hemostasis, hemorrhagic diseases and thrombosis. Programs extend over a broad range of basic, translational and population science. Graduate students and MD and Ph.D. fellows are invited to apply for positions in an NIH sponsored training program leading to either the Ph.D. degree or to post-doctoral studies. Past fellows have been from the fields of Biochemistry, Cell Biology, Hematology, Cardiology, Surgery and Pathology. For fellows pursuing hematology-oncology training, integration with clinical training is offered. Specific areas of interest include:

- Blood coagulation reaction mechanisms.
- Dynamics and proteomics of the blood coagulation/fibrinolytic systems.
- Platelet/megakaryocyte biology.
- Epidemiology and genetics of cardiovascular diseases and venous thrombosis.
- Treatment of hemophilia and venous thrombosis, and thrombosis prevention.

 Participating mentors are in the fields of Biochemistry, Pathology, Cardiology, Hematology, Epidemiology, Surgery, Genetics and Cell Biology.

Applicants must be citizens, noncitizen nationals or permanent residents of the US. Additional information can be found on our websites:

http://biochem.uvm.edu, www.med.uvm.edu/lcbr
http://www.fletcherallen.org/services/heart_health/specialties/cardiology/
http://www.med.uvm.edu/pathology/, www.uvm.edu and www.fletcherallen.org

Minority applicants and women are encouraged to apply. Send inquiries to: Dr. Kenneth G. Mann, Biochemistry Department, University of Vermont, College of Medicine, 208 South Park Drive Room 235C, Colchester, VT 05446 or email to kenneth.mann@uvm.edu.

The Department of Physiology & Biophysics, Howard University College of Medicine in Washington, DC is seeking to fill tenure-track faculty positions at the Assistant/Associate Professor level in the fields of Cardiovascular Physiology, Neurosciences/Biophysics and Endocrinology.

Respectively, the candidates should have a solid background in cellular and molecular aspects of cardiomyopathies and heart failure, cognitive neuroscience/membrane biophysics-patch clamp and reproductive/metabolic endocrinology. A minimum of 3-5 years of post-doctoral experience is required. For the position in cardiovascular physiology, expertise in cellular signalling mechanisms mediating cardiac hypertrophy and/or heart failure through inotropic peptides matched with a good publication record is preferred. In the neurosciences, a background in visual motion physiology/self-motion perception/oculomotor physiology and/or cell culture/slice preparation is desirable. For the endocrinology position, focus on metabolic syndrome is preferred. Experience in translational research is desired. The candidates are expected to lead independently funded research programs that will integrate with on-going departmental interests in the cardiovascular field, the neurosciences and endocrinology. Start-up funds and initial salary compensation will be provided. Teaching within the College of Medicine’s curricula will be required as needed and in keeping with the candidates’ backgrounds. The positions are to be filled during the academic years 2012/2013. Candidates should send curriculum vitae, publication list and research interests to:

Werner M. Graf, M.D. Ph.D., Professor and Chairman
Dept. Physiology & Biophysics
Howard University College of Medicine
520 W Street, N.W.
Washington, DC 20059 - USA
