Peripheral Circadian Clocks Work Without a Central Zeitgeber

p. 4950

November 2014
Vol. 28, No. 11
The program now has three research grants for 2015 which support new research on probiotics and gastrointestinal microbiota in the United States. Young investigators committed to basic research on gastrointestinal microbiota, probiotics and their role in health and wellness should apply. Grant will start on July 1, 2015.

Congratulations to the 2014 grant recipients

Julie Mirpuri-Hathiramani, MD
Assistant Professor, Pediatrics
University of Texas Southwestern Medical Center

Lawrence David, PhD
Assistant Professor
Department of Molecular Genetics & Microbiology
Duke University

Angela Zivkovic, PhD
Assistant Professor
Department of Nutrition
University of California, Davis

The mission of DANONE NUTRICIA RESEARCH is to bring health through food to as many people as possible. It is the world’s leading producer of yogurt products, sold under the DANNON and DANONE brand names. Over the past 90 years, DANONE NUTRICIA RESEARCH has built a vast ‘culture collection’ of bacteria strains that provide the basis for product innovation. Sound scientific research is the cornerstone of DANONE NUTRICIA RESEARCH’s focus on the health benefits of probiotics in food.

YAKULT HONSHA CO., LTD. contributes to the health and happiness of people around the world through the pursuit of excellence in the life sciences and research on microorganisms. For over 75 years, Yakult has promoted a deep and widespread understanding of probiotics. As of 2013, over 30 million bottles of Yakult’s signature probiotic drink are consumed daily in 33 countries and regions, including the United States.

NOW... 3 grants
in the amount of
$50,000

Application deadline
Feb 10, 2015

Information Available

The Global Probiotics Council is a committee established in 2004 by DANONE NUTRICIA RESEARCH and YAKULT HONSHA CO., LTD., to promote and/or advance the field of probiotics in the world.
Immunity in Health and Disease
September 27-29, 2015
North Raleigh Hilton, Raleigh, NC
Organizers: Nicholas Lukacs and Elizabeth Kovacs

Plenary Sessions
- Autophagy, Unfolded Protein Response, and ER Stress in Disease Progression
  - Epigenetics and Immunity
  - Microbiome and Mucosal Immunity
  - Neuro-Immune Interactions
  - Metabolic Control of Immunity

Concurrent Sessions
- Lipid Mediator Regulation of Disease
- Immunologic Mechanisms of Vaccination
- Inflammasomes and Inflammatory Disease
- Fibrosis and Tissue Repair
- DC and Macrophages in Tumorigenesis and Inflammation
- Treg/Th17 Balance in Inflammatory Disease
- Neutrophils in Health and Disease
- Best of Journal of Leukocyte Biology
