Editorial

The FASEB Journal—1992 and Beyond. A Message from Thomas S. Edginton

News

Highlights: ASPET's 1991 Meeting
Nutrition and HIV Infection
In Brief
Special Feature: Advances in immunotoxins

Overview

AIDS: Ten years later. T. W. Mak and H. Wigzell

Reviews

HIV epidemiology: past, present, and future. W. A. Blattner
Molecular biology of the human immunodeficiency virus type 1. W. A. Haseltine
Regulation of HIV-1 gene expression. B. R. Cullen
Targeted therapy of human immunodeficiency virus-related disease. H. Mitsuya, R. Yarchoan, S. Kegeyama, and S. Broder
Immunopathogenesis of HIV infection. Z. F. Rosenberg and A. S. Fauci
HIV-1, macrophages, glial cells, and cytokines in AIDS nervous system disease. J. E. Merrill and I. S. Y. Chen
Murine acquired immunodeficiency syndrome (MAIDS): an animal model to study the AIDS pathogenesis. P. Jolicoeur
Prospects for an HIV-vaccine. H. Wigzell
Development of artificial vaccines against HIV using defined epitopes. J. A. Berzofsky
Mother-to-child transmission of human immunodeficiency virus. P. Rossi and V. Moschese
Genomic diversity and antigenic variation of HIV-1: links between pathogenesis, epidemiology, and vaccine development. J. Goudsmit, N. K. T. Back, and P. L. Nara
Neutralization of HIV-1: a paradox of humoral proportions P. L. Nara, R. R. Garrity, and J. Goudsmit

Research Communications

Interleukin 1 protects from cytokine arabinoside-induced alopecia in the rat model. J. J. Jimenez, G. H. W. Wong, and A. A. Yunis
Oxidized low-density lipoprotein increases cultured human endothelial cell tissue factor activity and reduces protein C activation. J. R. Weiss, R. E. Ptas, B. D. Wilson, and G. M. Rodgers
Cerebellar GABAergic receptors modulate function of GABAergic cells. L. Hahner, S. M. McQuilkin, and R. A. Harris
Immunological memory to tetanus toxoid is established and maintained in the vitamin A-depleted rat. M. Kinoshita, A. M. G. Pasatiempo, C. E. Taylor, and A. C. Ross
Mammalian pyruvate carboxylase: effect of biotin on the synthesis and translocation of apo-enzyme into 3T3-L1 adipocyte mitochondria. P. M. Ahmad and F. Ahmad

Letters to the Editor

Doxorubicin Toxicity. T. Ramasarma and C. K. R. Kurup
Authors' Reply. R. D. Olson and P. S. Mushlin
Research Funding. D. B. Northrop
Author's Reply. T. E. Ogden
Citations and Areas of Research. C. J. Peters
Federal Assistance for Biomedical Research Laboratories. J. W. Flesher

50 Years Ago

Protein Denaturation 50 Years Ago. H. Neurath
