Editorial
Medical Education: Capitalizing on the Lecture Method. F. Velle ................. 811
Public Affairs
Consensus Panel on NIH’s 5-year Plan ........................................ 813
News & Features
In Brief ................................................................. 821
Special Feature: Does it make you see red?: on the use of color in slides. T. Shipley .... 823
Reviews
Experimental gastric mucosal injury: laboratory models reveal mechanisms of pathogenesis and new therapeutic strategies. G. B. Glavin and S. Szabo ........................................ 825
Subtypes of α2- and α2-adrenergic receptors. D. B. Bylund .......................... 832
Molecular mimicry: a mechanism for autoimmune injury. L. A. Barnett and R. S. Fujinami .... 840
Diversity of structure, signaling and regulation within the family of muscarinic cholinergic receptors. M. M. Hosey .................................................. 845
Proteoglycans: many forms and many functions. T. E. Hardingham and A. J. Fosang .......... 861
Protein-protein interactions at a DNA replication fork: bacteriophage T4 as a model. N. G. Nossal ........................................... 871
Bone structure: from angstroms to microns. S. Weiner and W. Traub .................. 879
Angiogenesis in the female reproductive system. L. P. Reynolds, S. D. Killilea, and D. A. Redmer .... 886
Calcium and the heart: exchange at the tissue, cell, and organelle levels. G. A. Langer ............ 893
Research Communications
Relationship of resistance to oxygen free radicals to CuZn-superoxide dismutase activity in transgenic, transfected, and trisomic cells. T.-T. Huang, E. J. Carlson, S. A. Leadon, and C. J. Epstein ...... 903
Interleukin 1 protects hair follicles from cytarabine (ARA-C)-induced toxicity in vivo and in vitro. J. J. Jimenez, M. E. Sawaya, and A. A. Yunis ........................................ 911
Volatile anesthetics gate a chloride current in postnatal rat hippocampal neurons. J. Yang, K. E. Isenberg, and C. F. Zornuski ........................................ 914
50 Years Ago
Advances and Controversies in Blood Coagulation: a 50-year Retrospective. K. M. Brinkhaus ........................................ 925
Calendar ................................................................. 927
BookList ................................................................. 928
Employment Opportunities .................................................. 929
New Products & Literature .................................................. 933

The FASEB Journal is the Official Publication of the Federation of American Societies for Experimental Biology The American Physiological Society • American Society for Biochemistry and Molecular Biology • American Society for Pharmacology and Experimental Therapeutics • American Association of Pathologists • American Institute of Nutrition The American Association of Immunologists • The American Society for Cell Biology • Biophysical Society

The FASEB Journal (ISSN 0892-6630) is published 15 times a year (monthly except 2 issues in January and 3 issues in February) by FASEB, 9660 Rockville Pike, Bethesda, MD 20814, USA. Second-class postage paid at Bethesda, Maryland, and at additional mailing offices. Postmaster: Send address changes to The FASEB Journal, 9660 Rockville Pike, Bethesda, MD 20814, USA.
