State-of-the-art Reviews in the May issue of The FASEB Journal...

Endogenous retroviruses: potential etiologic agents in autoimmunity. A. M. Krieg, M. F. Gourley, and A. Perl

Protein folding and protein refolding. R. Seckler and R. Jasniewicz

Immunoglobulin gene expression only in the right cells at the right time. L. A. Eckhardt

Cytokine regulation of endothelial cell function. A. Mantovani, F. Bussolino, and E. Dejana

Signal transduction from cell surface to nucleus in development and disease. M. Karin

Regulation of blood coagulation by the protein C system. F. J. Walker and P. J. Fay

Control of transcription activation by steroid hormone receptors. H. Groner

Biochemistry and physiology of n-3 fatty acids. W. E. M. Lands

Original communications or proposals for reviews, prepared as described in the Information for Authors (see volume 6, no. 2), should be sent to the Editor-in-Chief, Dr. W. J. Whelan, The FASEB Journal, P.O. Box 016129, Miami, FL 33101-8129, USA, or if a private courier is used, to the University of Miami School of Medicine, Gautier Building, Room 317, 1101 N.W. 15th Street, Miami, FL 33136-1019, USA.

Subscription price U.S. and its possessions: members of Corporate Societies $39 per year; nonmembers (personal) $95 per year; Institutional $225 per year; Student $39 per year with certification. Mexico/Canada add $20 postage; other foreign add $48 (expressed delivery). All subscriptions entered on a calendar-year basis only and payable in advance. Single issues, except Abstracts issues, $20. Subscriptions and orders should be sent to The FASEB Journal, Subscription Department, 9650 Rockville Pike, Bethesda, MD 20814-3998, USA.

In Press

Editorials and Other Articles

Opportunities for basic scientists in disease-oriented research

The Ras superfamily of GTP-binding proteins

Metabolic pre-history

Genetics 50 years ago

From acetylphosphate to acetyl CoA

Reviews

c-Myc oncoprotein

Bioenergetic membranes

Receptor tyrosine kinases in Drosophila development

Glucose and diabetic vascular disease

Endothelin-coverting enzymes

Regulation of antioxidant enzymes

Perfusis toxin and target eukaryotic cells

Hemopoietic stem cells

Supramolecular organization of extracellular matrix

glycansaminoglycans

COVER: Visualization of the hyaluronan coat around a human mesothelial cell in culture. See Laurent and Fraser, page 2397.

Designed to report on rapidly changing developments in biological sciences, The FASEB Journal publishes brief, definitive, original research communications and state-of-the-art reviews, as well as editorials, letters, a book list, news items, calendar, public affairs, and employment opportunities. The views expressed in articles are those of the authors and not necessarily those of the Federation. All manuscripts are subject to review and approval by the Editors before publication.
