The American Journal of Clinical Nutrition

List of Supplements

1992

• Aging: nutrition and the quality of life. AJCN (in press).
• Very-low-calorie diets: Proceedings of a Satellite Symposium to the Sixth International Congress on Obesity. AJCN (in press).

1991

• Antioxidant vitamins and β-carotene in disease prevention. AJCN 53(1S), January 1991, 215 pages ($25.00).
• PORIM International Palm Oil Development Conference. AJCN 53(4S), April 1991, 103 pages ($25.00).
• Obesity and cardiovascular disease in minority populations. AJCN 53(6S), June 1991, 150 pages ($25.00).
• An update on calcium: applications for the '90s. AJCN 54(1S), July 1991, 117 pages ($35.00). Out of stock.
• Ascorbic acid: biologic functions and relation to cancer. AJCN 54(6S), December 1991, 222 pages ($35.00).

1990

1989

• First International Conference on Nutrition and Fitness. AJCN 49(5S), May 1989, 237 pages ($20.00).
• International Conference on Iron Deficiency and Behavioral Development. AJCN 50(3S), September 1989, 144 pages ($20.00).
• Epidemiologic and methodologic problems in determining nutritional status of older persons. AJCN 50(5S), November 1989, 126 pages ($20.00).

For supplements published before 1989 and pricing for those in press, please call the AJCN Office in Bethesda (301) 530-7038.

The New Age of RNA

January 1993 — Thematic Issue

Coordinators: Michael W. Gray and Robert Cedergren

S. Altman. RNase P

L. Bonen. Trans-splicing of RNA

R. Cedergren. Modeling RNA tertiary structure

F. Eckstein and O. Heidenreich. Synthesis of modified RNA: approaches and applications

M. W. Gray and P. S. Covello. RNA editing in plant mitochondria and chloroplasts

S. L. Hajduk, M. Harris, and V. Pollard. RNA editing in protozoan mitochondria

W. H. McClain. Identity elements in transfer RNA group I and II

D. Moras. RNA-protein interactions: tRNA aminoacyl tRNA synthetase recognition

I. W. Mattaj, D. Tollervey, and B. Seraphin. Small nuclear RNAs in messenger RNA and ribosomal RNA processing

H. F. Noller. The functional role of RNA in the ribosome

R. Saldanha, A. Lambowitz, and G. Mohr. Self-splicing introns

O. C. Uhlenbeck and D. Long. Catalytic RNA: ribozymes

C. Woese. RNA as an evolutionary probe

Research communications on RNA also will appear in the January issue. Deadline for submission of manuscripts is October 1, 1992.

The Procter & Gamble Company
Animal Alternatives Research Program
A Call for Research Proposals

The Procter & Gamble Company is committed to the development and use of new methods for testing the efficacy and safety of drugs and consumer products that eliminate or reduce the use of animals or distress imposed on animals. The Animal Alternatives Research Program will provide funds for research to develop such methods.

Funding: Up to $50,000 annually for up to 3 years. Three such grants will be awarded.

Deadline for Application: Sept. 1, 1992
Announcement of Recipients: Jan. 1, 1993

Proposals will be accepted from any academic or non-profit medical research institution. The Company is interested in proposals in the following areas:

Efficacy Testing

- Inflammation/Arthritis
- Diseases of the Oral Cavity
- Nutritional and Gastrointestinal Disorders
- Cardiovascular Disorders
- Bone Disorders
- Skin Disorders
- Respiratory Diseases
- Rational Drug Design
- Structure - Activity Relationships

Safety Testing

- Ocular Irritation
- Acute Oral Toxicity
- Skin Irritation and Contact Sensitization
- Developmental Toxicity
- Respiratory Toxicity
- Neurotoxicity
- Computer Modeling of Toxicologic Processes
- Structure - Activity Relationships

Enquiries and requests for applications should be directed to:

Program Administrator

January 17-22, 1993

ADVANCES IN GENE TECHNOLOGY: PROTEIN ENGINEERING AND BEYOND

Michael G. Rossmann will be the Lynen Lecturer • Kurt Wuthrich will be the Distinguished Service Awardee • David Phillips will be the Special Achievement Awardee

Topics:

- STABILITY AND FOLDING • PERSPECTIVES IN GLYCOBIOLOGY • REDESIGNING ANTIBODIES • PROTEIN FOLDING IN VIVO • DESIGNING TOMORROW’S PHARMACEUTICALS • RECEPTORS AND SIGNAL TRANSDUCTION • UNDERSTANDING CATALYSIS • CHIMERIC PROTEINS • PROGRESS IN PREDICTING TERTIARY STRUCTURE

All sessions will include Oral Presentations selected from submitted posters. Deadline for posters is October 13, 1992.

Scientific workshops and exhibits are also part of the program.

Cosponsored by Protein Engineering

The Symposium will take place at the Fontainebleau Hilton Resort on Miami Beach. Reservations for this hotel, as well as other hotels on Miami Beach, should be made through the Symposium Housing Office, using the address below.

Significantly reduced hotel rates have been arranged for Symposium participants. If you wish to be placed on the mailing list to receive the full program, poster instructions, exhibit information and registration forms, use the reply form below. The final program will be mailed in the Summer 1992.

Please complete this form and return it by mail or by fax to: Miami Bio/Technology Winter Symposia, PO Box 016129, Miami, FL 33101, U.S.A., or phone: 1-800-MIAGENE (1-800-642-4363) or fax 1-305-324-5665.

I wish to receive the following (mark □ one or more):

□ Program with registration and housing forms (available Summer 1992)
□ Poster Session information
□ My organization wishes to exhibit and I would like an Exhibitor’s Information Kit.
