Editorial
Toward Enhanced Symbiosis of Chemistry and Biology  R. U. Lemieux  273

News & Features
BioBits ...................................................... 274
Communications Capsule ......................... 276
Highlights—Experimental Biology ’94 ......... 276

Serial Review
Introduction: the extracellular matrix in higher plants.  B. G. Lane ...... 293
Oxalate, germin, and the extracellular matrix of higher plants.  B. G. Lane .... 294

Reviews
Appetite and the regulation of body composition.  D. S. Weigle .............. 302
What is special about smooth muscle? The significance of covalent crossbridge regulation.  R. A. Murphy .... 311
Structures and functions of collagens in Caenorhabditis elegans.  J. M. Kramer .......... 329
Molecular analysis of anti-DNA antibodies.  B. D. Stollar ................. 337
Modulation of steroid receptor-mediated gene expression by vitamin B6.  D. B. Tully, V. E. Allgood, and J. A. Cidlowski ........... 343

Research Communications

Erratum ................................................... 355

50 Years Ago
Role of the Mouse in the Delineation of the Anabolic-Androgenic Action of Steroids.  C. D. Kochakian  356

Calendar .................................................. 358
BookList .................................................. 359
Employment Opportunities .......................... 360
New Products & Literature ......................... 368

The FASEB Journal is the Official Publication of the Federation of American Societies for Experimental Biology
The American Physiological Society • American Society for Biochemistry and Molecular Biology • American Society for Pharmacology and Experimental Therapeutics • American Society for Investigative Pathology • American Institute of Nutrition
The American Association of Immunologists • The American Society for Cell Biology • Biophysical Society
American Association of Anatomists
