State-of-the-Art Reviews in the April issue of The FASEB Journal

Serial Review

Extracellular Matrix of Higher Plants II: Tissue printing.

J. E. Varner and Z. Ye

State-of-the-Art Reviews

Structural biology of tissue factor, the initiator of thrombogenesis in vivo. W. Ruf and T. S. Edgington

Angiogenesis and colonizing in the tumor metastatic process: basic and applied advances. D. Weinstat-Sassow and P. S. Steeg

Cytogenetic approaches to human cancer genes. P. C. Nowell

Short-term control of glucokinase activity: role of a regulatory protein.
E. Van Scherfingen, M. Detheux and M. Veiga-De-Cuarna

Cell adhesion molecules in liver function and pattern formation.
S. C. Stamatoglou and R. C. Hughes

Cover: TMOF is a decapeptide hormone that regulates trypsin biosynthesis in the mosquito gut and can be used to control mosquitoes. A molecular model of TMOF kindly provided by Dr. N. R. Krishna is on the left. On the right, TMOF is shown by immunocytochemical staining to bind to the mosquito midgut receptor (dark area). See Borovsky et al., pages 350-365.

Designed to report on rapidly changing developments in biological sciences, The FASEB Journal publishes brief, definitive, original research communications and state-of-the-art reviews, as well as editorials, letters, a book list, news items, calendar, public affairs, and employment opportunities. The views expressed in articles are those of the authors and not necessarily those of the Federation. All manuscripts are subject to review and approval by the Editors before publication. Copyright © 1994 by the Federation of American Societies for Experimental Biology. Printed at Lancaster Press, Lancaster, Pennsylvania.

All rights reserved. Requests for any reproduction of copyrighted material except the first page of a regular article should be made in writing to the Executive Editor, The FASEB Journal, 9850 Rockville Pike, Bethesda, MD 20814-3398, USA, and should include an explicit statement of intended use and detailed specification of the material to be reproduced. Telephone 301-530-7100. COPYRIGHT: An individual may make a single copy of an article for personal use. The code at the bottom of the first page of an article indicates the copyright owner's consent that additional copies of the article may be made provided that the stated fee is paid through the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970. Original communications or proposals for reviews, prepared as described in the Instructions for Authors (see volume 8, no. 1), should be sent to the Editor-in-Chief, Dr. W. J. Whelan. The FASEB Journal, M223, P.O. Box 09829, Miami, FL 33101-5829, USA, or if a private courier is used, to the University of Miami School of Medicine, Gator Building, Room 105, 1111 Northwest 12th Avenue, Miami, FL 33132-7978, USA.

Subscription price U.S. and its possessions: members of Corporate Societies $39 per year; nonmembers (personal) $95 per year; institutional $275 per year; Student $39 per year with certification, Mexico/Canada add $30 postage; other foreign add $48 (express delivery). All subscriptions entered on a calendar-year basis only and payable in advance. Single issues, except Abstracts issues, $22. Subscriptions and orders should be sent to The FASEB Journal, Subscription Department, 9850 Rockville Pike, Bethesda, MD 20814-3398, USA; 301-530-7101. In Japan, contact USAJOI Corp., 13-12 Shinshiba 1-Chome, Minato-Ku, Tokyo 146, Japan; 032624; fax 03-853-2709.

STATE OF THE ART REVIEWS

The reverse transcriptase of HIV-1: from enzymology to therapeutic intervention.

Intracerebral transplantation: basic and clinical applications to the neostriatum.
L. J. Fisher and F. H. Gage

Pharmacological regulation of AP-1 transcription factor DNA binding activity.
K. R. Pennypacker, J.-S. Hong, and M. K. McMillian

Obesity, diabetes, and neoplasia in yellow A"/" mice: ectopic expression of the agouti gene.
T. T. Yan, A. M. Gill, L. G. Frigeri, G. S. Barsh, and G. L. Wolff

Quinoproteins: W. S. McIntire

Adhesion molecules and inflammatory injury.
S. M. Albelde, C. W. Smith, and P. A. Ward

Molecular properties of epithelial, amiloride-blockable Na+ channels.
H. Garty
